at Our City of Toronto in Our said Province this fourth day of April, in the year of Our Lord one thousand nine hundred and eighty-nine and in the thirty-eighth year of Our Reign.

BY COMMAND

RICHARD PATTEN
Minister of Government Services.

3.00 P.M.

This being the first day of the Second Session of the Thirty-fourth Parliament convoked by Proclamation of the Lieutenant Governor for the despatch of business, and the members of the House having assembled:—

His Honour the Lieutenant Governor entered the Legislative Chamber and, having taken his seat on the Throne, was pleased to open the Session by making the following gracious speech:—

Speaker and Members of the Legislative Assembly:

Bienvenue à l'ouverture de la Deuxième Session de la Trente-quatrième Législature de la Province de l'Ontario.

Since taking office, my Government has charted a course for securing a better future for the people of Ontario. We will continue to be guided by our reform agenda.

This Session, my Government will address the following priorities:

1. Building on our economic strengths to ensure tomorrow's Growth.
2. Investing in the future of our children by making our education system a more effective springboard to opportunity.
3. Reforming social assistance to help people move from dependence to self-reliance.
4. Keeping our communities and neighbourhoods safe and secure.
5. Promoting healthy lifestyles and preserving quality health care.
6. Providing leadership in environmental protection.

Today, my Government will outline in general terms its approach for meeting these priorities. In the days ahead, Cabinet Ministers will provide details with respect to these initiatives as well as other important areas of government policy.

To achieve many of our objectives, the Government of Canada must honour its funding commitments to joint programs. My Government is deeply disturbed by past cutbacks and the erosion of federal commitments to joint programs in areas such as Health, Environment, Post-secondary Education, Training, Housing, and Forestry.

These programs are basic to Canada's unique character. Further cutbacks in federal participation and commitment will weaken our ability to achieve economic and social priorities.

1. BUILDING ON OUR ECONOMIC STRENGTHS TO ENSURE TOMORROW'S GROWTH

We must continue to have a dynamic and growing economy to preserve and enhance our quality of life.

Ontario has outpaced the industrialized world in economic expansion since 1982. Our Economy has grown by 41 percent and has created 800,000 new jobs.

We cannot take this success for granted. we must continue to provide the leadership to build on our economic strengths and ensure tomorrow's growth.

The Premier's Council on Technology has presented an action plan for competing in the international marketplace. We must adjust to a global economy that is characterized by greater competition, rapid technological innovation and diffusion, explosive growth of service industries, and the emergence of new trading blocs.

My Government will provide leadership by:

- Aggressively pursuing new markets for our goods and services.
- Targeting assistance to industries that provide maximum benefits for both workers and the economy.
- Supporting the growth of Ontario-based companies as they compete in the global economy.
- Fostering an entrepreneurial culture that promotes the growth of new businesses.

Our primary emphasis will be placed on improving Education, Training and Adjustment Programs.

To invest in developing the skills of our people, my Government will:

- Support apprenticeship and other training arrangements that combine education and on-the-job training.
- Help our workers to overcome barriers to training and employment.
- Assist the re-employment efforts of workers, particularly older workers, affected by layoffs and plant closures.
- Address present and anticipated shortages of skilled workers.

Next year, 1990, will be the International Year of Literacy. The inability to read is both a human and economic tragedy, whether reflected in the eyes of a parent unable to read a bedtime story to a child, or a worker unable to pursue career advancement. My Government will act to improve the basic literacy skills of our workforce.

2. EDUCATION: A SPRINGBOARD TO OPPORTUNITY

A purposeful and relevant education system is the key to realizing both the economic potential of our Province and the individual potential of our people.

Our elementary schools must assist our children to develop basic learning and social skills in their early years. They must build on that foundation by setting high standards for achievement in subsequent years.

Our secondary schools must give our students the chance to acquire advanced knowledge, and provide them with bridges to post-secondary education and the world of work.

At each of these levels a sense of excellence must be instilled.

My Government is determined to improve the quality of education for our children. New initiatives will refocus our education system from kindergarten to the end of secondary school.

THE FOUNDATION YEARS—JUNIOR AND SENIOR KINDERGARTEN

The early childhood years are the most important years for acquiring basic learning and social skills. The quality of education that our children receive in these critical foundation years will largely determine their ability to succeed at school and in later years.

My Government believes that children have the capacity to benefit from education at an earlier age. Our education system must build on their natural curiosity and their capacity for early learning.

My Government's Long-term vision is to make the opportunity for full-day junior and senior kindergarten available to all four and five-year-olds.

As a first step, my Government will:

- Ensure that all school boards offer half-day junior kindergarten for four-year-olds as well as half-day senior kindergarten for five-year-olds.
- Provide funding for school boards to offer full-day senior kindergarten programs, where classroom space permits.

These two initiatives will, over the next five years, provide parents with an opportunity to place their children in a stimulating learning environment at an early age.

THE FORMATIVE YEARS—GRADES ONE TO SIX

As students move through the school system they must continue to develop a wider range of learning and life skills.

As part of an ongoing effort to improve the standard of education, my Government has introduced a wide variety of initiatives, including a commitment to reduce class sizes in grades one and two. That initiative will be completed next year.

My Government will also:

- Revitalize the curriculum from grades one to six by focusing on the development of literacy, analytical, and communications skills.
- Place a greater emphasis on assessing student performance and providing remedial help.

THE TRANSITION YEARS—GRADES SEVEN TO NINE

Grades seven to nine are critical years for helping students make the transition from the basic learning years in elementary school to more advanced and specialized studies in secondary school. My Government will restructure those years to ensure a smoother transition.

My Government is particularly concerned that we are requiring students to make career choices at an age when they have not yet discovered their full potential.

Therefore, my Government will:

- Ensure a core curriculum in grades seven, eight and nine that emphasizes the development of basic skills and progressive problem-solving.
- Eliminate streaming in grade nine.

THE SPECIALIZATION YEARS—GRADES TEN TO TWELVE

Our secondary school programs must build on the foundation of acquired learning skills. They must assist students to make informed career choices, and address the broader economic needs of our Province for a highly-skilled workforce.

My Government will:

- Develop the final years of secondary school, grades 10-12, as years of specialization.
- Redesign technological education through updating and consolidating curriculum as well as renewal of teaching equipment. This will be undertaken in partnership with business, labour and our communities.

Grâce à ces mesures, nos enfants auront la possibilité d'acquérir les connaissances et compétences indispensables pour réussir sur le marché du travail ou dans leurs études postsecondaires.

We are determined to invest in the future of our children by making our school system a more effective springboard to opportunity.

3. SOCIAL ASSISTANCE: MOVING FROM DEPENDENCE TO SELF-RELIANCE

In 1988-89, Ontario provided \$2 billion for social assistance—an increase of more than 60 percent since 1984-85. Yet the number of people needing social assistance continues to grow.

In the midst of great wealth, many single mothers must rely upon the generosity of others to help provide for their children. Many children are unable to reap the benefits of schooling because the pangs of hunger override the thirst for knowledge.

Poverty is often the lead domino in a chain of problems that encompasses poor health, a shorter life, and lower educational achievement.

As a caring society, we cannot stand by and allow this tremendous loss of individual potential.

My Government recognizes that a new approach is needed. We must do a better job of providing all children with the possibility of a better way of life and the means of attaining it.

We must assist individuals to move from a life of dependence to a life of self-sufficiency.

We will continue to meet the needs of those who are unable to be self-sufficient. For those on social assistance who are capable of being self-reliant, we must do a better job of helping them to move into the mainstream by transforming welfare cheques into pay cheques.

Accordingly, my Government's reforms to the social assistance system will include:

- Increased payments for shelter support to persons on social assistance.
- Removal of barriers which serve as disincentives to work.
- Expansion of the network of employment counselling, referral, basic training and job preparation programs.
- increased children's benefits.

My Government recognizes that social assistance reform must be viewed as a shared responsibility. Progress in this area will require the financial support and cooperation of all levels of government and the community at large.

4. SAFE AND SECURE COMMUNITIES

We all take pride in the safety of our communities. Maintaining this sense of security is critical to our Province's future well-being and development.

My Government is concerned about the recent adverse effects on the quality of life in our communities caused by drug and alcohol abuse, racial tension, and incidents of violence.

My Government will introduce a comprehensive anti-drug strategy which will consist of:

- Education and prevention programs, including anti-drug education in primary and secondary schools, and community-based programs in high-risk neighbourhoods.
- A wider range of treatment programs including employee assistance programs.

- Expansion of Ontario's drug enforcement capacity, including a strengthened OPP Drug Enforcement Unit.

My Government will undertake a number of other measures to protect the quality of life in our communities, including:

- Expanding our efforts to prevent violence against women and children.
- Providing enhanced race relations training to better equip police to respond to the diverse needs of the community they serve.
- Working with the OPP and all municipal police forces to promote racial equality in employment.
- Urging the Federal Government to effect immediate changes to the Young Offenders Act.
- Reforming our court system to provide improved access to justice.

5. PROMOTING HEALTHY LIFESTYLES AND PRESERVING QUALITY HEALTH CARE

My Government believes that, as a matter of principle, every person is entitled to have access to quality health care regardless of ability to pay.

We are determined to preserve that principle despite the pressures of an aging population, the rapidly escalating cost of medical technology, and the emergence of new diseases.

In 1987, my Government established the Premier's Council on Health Strategy. The Council—which represents a partnership among Business, Labour, Government, Universities, Health Care Professionals and Consumers—is providing advice on how to better meet our future health needs.

The Council has developed a broader vision of health for Ontario. This vision recognizes that good health is dependent upon: a safe, non-violent environment; adequate income, housing, food and education; and, a person's valued role in family, work and the community.

The Council has identified five health goals:

- Shifting the emphasis from treatment after-the-fact to health promotion and disease prevention.
- Fostering strong and supportive families and communities.
- Ensuring a safe and high-quality physical environment.
- Increasing the number of years of good health for Ontarians by reducing illness, disability and premature death.
- Providing accessible, affordable, appropriate health services for all.

My Government will introduce a number of initiatives to help realize these goals, including specific measures to address specialty care needs in areas such as

emergency services, cancer care, cardiovascular services, dialysis, trauma, aids and maternal and infant health.

6. CONTINUING LEADERSHIP IN ENVIRONMENTAL PROTECTION

A clean and safe environment is one of the cornerstones of our effort to promote better health. Ontario will continue to demonstrate leadership in environmental protection to ensure the quality of our air, water and food.

We recognize that this will require a broad effort that involves individuals, business and all levels of government. Environmental protection must be a shared responsibility.

As part of a global effort, we will encourage everyone to reduce, re-use, recycle and recover waste. In addition to preventing future environmental abuse, we will continue to restore environmentally damaged areas.

My Government will introduce measures such as:

- Requiring that vapours produced by automobile fuels, which contribute to air pollution, be reduced.
- Strict control standards to cut automobile-produced acid rain emissions by one-third by the year 2000.
- A comprehensive Ontario Waste Reduction Strategy designed to meet the target of reducing Ontario's solid waste by 50 percent by the year 2000.
- Programs to stimulate the development of pollution abatement technologies.
- A new lottery fund, "CLEANTARIO", to help finance our ongoing efforts to protect our environment.
- Programs to encourage more efficient water use and conservation by both industries and individuals.
- Educational programs to help students develop a greater sense of personal responsibility for environmental protection.

BUILDING A BETTER FUTURE FOR OUR CHILDREN

My Government's foremost concern is to build a better future for our children.

We want to ensure that every child is nurtured in an environment that provides adequate food, clothing and shelter. We know that we must attend to those basic needs if our children are to realize their full potential.

We want our children to grow up in communities that are safe and secure—free of the fear of crime, free of physical abuse, and free of the tyranny of drug and alcohol abuse.

We want our children to grow up in a society that promotes healthy living—in its homes, in its schools, and in its places of work.

We want our children's individual efforts at living healthy lifestyles to be matched by a greater shared responsibility for our environment. We know that we must ensure that economic growth and environmental protection go hand in hand.

We want to provide our children with the basic knowledge and learning skills needed to seize the opportunities offered by the very different world of the 21st century.

Nous voulons qu'en envisageant l'avenir nos enfants aient confiance en leurs aptitudes, soient fiers de leur diversité et n'éprouvent aucune inquiétude quant à leur qualité de vie.

Ontario is a prosperous society. Our Province is a safe, clean and healthy place in which to live. We must make sure that it remains that way—for all Ontarians.

Puisse la Divine Providence vous guider dans vos délibérations.

In our Sovereign's name, I thank you.

God Bless the Queen and Canada.

His Honour was then pleased to retire.

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the Opening of the Session having been read,

The debate was resumed, and after some time,

Mr Rae (York South) moved,

That the motion be amended by adding the following thereto:—

This House, however, regrets that the Speech from the Throne simply confirms the slide of this government into the complacent drift of a huge majority, and condemns the government for:

- failing utterly to address the issue of tax justice, despite the predictably draconian tax unfairness of the federal Tory budget, while continuing its unprecedented financial squeeze on municipalities;
- ignoring the garbage crisis in Ontario, while trivializing our environmental problems with its proposed lottery;

- continuing its attack on the rights of working people through its proposed changes to workers' compensation and its broken promises on pensions;
- playing politics with social assistance, proposing much, much less than the first phase of the Thomson Report's recommendations while signalling buck-passing on the costs;
- making empty promises on education reform by failing to back up commitments with financial support.
- and leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario, including car insurance, home care, the North, housing, energy, the nursing shortage, the teacher shortage, post-secondary education, employment equity, health and safety, agriculture, and employment standards, among others.

Therefore, this House declares its lack of confidence in this government.

And, after some time, it was,

On motion by Mr Harris,

Ordered, that the debate be adjourned.

The House then adjourned at 5.00 p.m.

The debate was resumed, and after some time,

Mr Brandt moved,

That the Amendment to the Motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the opening of the Session be further amended by striking out everything after the phrase, "and leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario" and substituting the following:

"In particular:

- The continued mismanagement of the provincial taxpayer's dollars and lack of planning for fiscally responsible public policies;
- The failure on the part of the government to come to grips with the serious shortage of affordable housing in the large urban centres of the Province;
- The confusion and lack of leadership demonstrated by the government with respect to automobile insurance;
- The lack of financial commitment and planning to continue the move toward increasing community based health care begun by the previous government and the failure to mention home care in particular.
- The aging of our society and the need for public policy initiatives to assist the seniors of the Province;
- The continuing practice of the government to offload its responsibilities to other levels of government. In particular their attitude toward worker training, retraining and work force management and their continued delegating of provincial responsibilities to the municipalities;

- The total absence of any acknowledgement of the vital role of resource policies for the provincial economy including agriculture, mining, forestry, tourism and, energy;
- The failure on the part of the government to present a program which recognizes and would address the problems of regional disparities of the North and the East;
- The governments willful blindness to the growing shortages of nurses, teachers and other professionals and skilled trades persons, which if they persist will threaten the viability of our economy, the competitiveness of our industries, and the quality of our public services.

Therefore, this House declares its lack of confidence in this government.

And, after some time, it was,

On motion by Mr Mahoney,

Ordered, that the debate be adjourned.

Legislative Assembly
of the Province of Ontario

Mr Owen moved,

That, in the opinion of this House, recognizing the unique nature of owned-home leased lot retirement communities, the Government of Ontario should undertake a review of these communities that would include: the apportionment of common amenities and services; tenure arrangements including leaseholds, life leases and condominiums; verification of maintenance and operating expenditures; contractual restrictions on the right of resale of units; the absence of fiduciary regulation; the registrability of leases and the role of rent regulation for these communities.

Mr Cooke (Windsor-Riverside) then moved,

That, in the opinion of this House, recognizing the inability of the Liberal government to ensure auto insurance protection for Ontarians or progressive reform of the workers' compensation system, and recognizing that numerous government studies have supported the concept of a universal sickness and accident system; the Government of Ontario should introduce legislation during its current mandate to implement a universal sickness and accident insurance program; and further that this legislation should be based on the results of a widespread open public consultation held between now and the introduction of a bill.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Owen's Resolution Number 6, the question, having been put, was declared carried, and it was,

Debate was resumed on the Amendment to the Amendment to the Motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the Opening of the Session,

And after some time, the amendment to the amendment to the motion as follows:

That the amendment to the motion for an address in reply to the Speech of His Honour the Lieutenant Governor at the opening of the Session be further amended by striking out everything after the phrase, "and leaving untouched and unmentioned an extraordinary range of issues facing the people of Ontario" and substituting the following:

"In particular:

- The continued mismanagement of the provincial taxpayer's dollars and lack of planning for fiscally responsible public policies;
- The failure on the part of the government to come to grips with the serious shortage of affordable housing in the large urban centres of the Province;
- The confusion and lack of leadership demonstrated by the government with respect to automobile insurance;

- The lack of financial commitment and planning to continue the move toward increasing community based health care begun by the previous government and the failure to mention home care in particular;
- The aging of our society and the need for public policy initiatives to assist the seniors of the Province;
- The continuing practice of the government to offload its responsibilities to other levels of government. In particular their attitude toward worker training, retraining and work force management and their continued delegating of provincial responsibilities to the municipalities;
- The total absence of any acknowledgement of the vital role of resource policies for the provincial economy including agriculture, mining, forestry, tourism and, energy;
- The failure on the part of the government to present a program which recognizes and would address the problems of regional disparities of the North and the East;
- The governments willful blindness to the growing shortages of nurses, teachers and other professionals and skilled trades persons, which if they persist will threaten the viability of our economy, the competitiveness of our industries, and the quality of our public services.

Therefore, this House declares its lack of confidence in this government.

The amendment to the motion as follows:

That the motion for an Address in Reply to the Speech of His Honour the Lieutenant Governor at the opening of the session be amended by adding the following words:

“This House, however, regrets that the Speech from the Throne simply confirms the slide of this government into the complacent drift of a huge majority and condemns the government for:

“Failing utterly to address the issue of tax justice, despite the predictably draconian tax unfairness of the federal Tory budget, while continuing its unprecedented financial squeeze on municipalities;

“Ignoring the garbage crisis in Ontario while trivializing our environmental problems with its proposed lottery;

“Continuing its attack on the rights of working people through its proposed changes to workers’ compensation and its broken promises on pensions;

PRAYERS

10.00 A.M.

Mr Runciman moved,

That, in the opinion of this House, recognizing that there have been twenty-eight bank branch closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefits can be determined.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Matrundola then moved,

That, in the opinion of this House, recognizing the benefit of having the elderly, disabled and chronically ill remain in their own homes, the Government of Ontario should establish a framework to allow for the relatives of frail elderly, chronically ill and disabled persons to care for them at home, where mutually agreeable and medically possible, by compensating the caregiver at the same rate as qualified homemakers, and that the Government of Canada be urged to allow the caregiver to maintain Canada Pension Plan and Unemployment Insurance contributions.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Runciman's Resolution Number 5, the question, having been put, was declared carried, and it was,

The Order of the Day for resuming the Adjourned Debate on the Motion that this House approves in general the Budgetary Policy of the Government having been read,

The debate was resumed, and after some time,

Mr Laughren moved,

That the motion “that this House approves in general the Budgetary Policy of the Government” be amended by deleting the words following “that” and adding thereto the following:

This House, recognizing that the 1989 budget fails the fundamental test of tax fairness, condemns the government for:

Refusing to implement a minimum corporate income tax on profits, and instead taxing payrolls and jobs,

Failing to distribute taxes fairly with an inheritance tax or other wealth tax for the richest of our citizens;

Sheltering the banks and financial institutions from any new capital taxes,

Introducing virtually no relief for low-income families, and continuing the absurdity of taxing families that earn \$10,000 below the poverty line,

Broadening and increasing consumption taxes that hit low and middle-income people the hardest,

Ignoring the North when it comes to investment and jobs, and instead using it as a source of tax revenue,

Continuing to starve municipalities and school boards of much needed funding, while simply piggybacking on the pain of the unfair tax increases of the Wilson budget,

Failing to address adequately the needs of those on social assistance,
Therefore, this House declares its lack of confidence in this government.

The debate continued, on the amendment to the motion,

And after some time,

On motion by Mr Johnson (Wellington),

Ordered, That the debate be adjourned.

The House then adjourned at 4.35 p.m.

HUGH EDIGHOFFER
Speaker.

Mr Ballinger moved,

Second Reading of Bill 27, An Act to designate an Avian Emblem for Ontario.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Miss Martel then moved,

That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on the motion for second reading of Bill 27, An Act to designate an Avian Emblem for Ontario, the question having been put, was declared carried, and the Bill was accordingly read the second time and *Ordered referred to the Committee of the Whole House*.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Miss Martel's Resolution Number 11, the question, having been put, was lost on the following division:—

PRAYERS

10.00 A.M.

Mr Black moved,

That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Philip (Etobicoke-Rexdale) then moved,

That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing deicing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Black's Resolution Number 15, the question, having been put, was declared carried, and it was:—

Votes and Proceedings

Legislative Assembly
of the Province of Ontario

2nd Session, 34th Parliament
Thursday, July 13, 1989

PRAYERS

10.00 A.M.

Mr Wiseman moved,

That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Ms Collins then moved,

That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Wiseman's Resolution Number 17, the question, having been put, was declared carried, and it was:—

Resolved, That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Ms Collins' Resolution Number 18, the question, having been put, was declared carried, and it was:—

Votes and Proceedings

Legislative Assembly
of the Province of Ontario

2nd Session, 34th Parliament
Monday, July 17, 1989

Before “Members’ Statements” the Speaker ruled as follows:—

Last Wednesday, the Honourable Member for Mississauga West, Mr Mahoney, raised a question of privilege with respect to allegations that had been made by the Honourable Leader of the Opposition in Question Period the day before. I listened carefully to the Honourable Member the other day, as well as to the Honourable Leader of the Opposition and I have read over attentively the notes used by the Honourable Member for Mississauga West when he was speaking on this point last week.

After examining the words of the Leader of the Opposition in Question Period last Tuesday, when he was asking a Supplementary Question of the Premier on the activities of the Member for Mississauga West, I find that at most there exists a disagreement between the two Honourable Members as to the facts. As for the main part of the Member for Mississauga West’s presentation which deals with a Press Release issued by the Leader of the Opposition, I must find that this pertains to statements made outside the House and therefore cannot form the basis of privilege inside the House. I am certain that the Honourable Member knows what his rights are in relation to statements made outside the House.

In support of these two reasons I quote Beauchesne’s 6th Edition, page 13, numbers 31 (1) and (3) which read as follows:

- “(1) A dispute arising between two Members, as to allegations of facts, does not fulfill the conditions of parliamentary privilege.
- (3) Statements made outside the House by a Member may not be used as the basis for a question of privilege”.

In conclusion therefore, I cannot find a *prima facie* case of privilege.

After “Oral Questions” the Speaker delivered the following ruling:—

On Thursday last, the Opposition House Leader, Mr Cooke (Windsor-Riverside) raised a point of order with respect to Government Notice of Motion Number 6 which had been moved by the Government House Leader, Mr Conway. The motion in question is one for the allocation of time and sets out in detail the provisions which are to be made for further proceedings on Bill 162, An Act to amend the Workers’ Compensation Act. The member for Windsor-Riverside cited 4 reasons for the motion being out of order. First, there is no provision in the Standing Orders for such a motion; second, the deeming provisions of the motion affecting amendments are unprecedented and amount to an abuse of the minority; third, the time allocated to the Committee of the Whole House stage is inadequate and does not allow the opposition to adequately perform its role of holding government accountable; and fourth, it prejudices the members of the Legislature and their role in dealing with legislation. The House Leader for the Progressive Conservative Party, Mr Harris, maintained that the deeming provisions of the motion affecting amendments prejudicially affect the ability of the opposition to put forward its arguments on particular amendments and would have the effect of deem-

ing each amendment to be in order. The members for Scarborough West, Hamilton Mountain and the Government House Leader also offered advice on matters I should consider in determining if the motion is in order.

As I stated in my ruling to the House on the 23rd of January of this year, it has been settled that a motion for the allocation of time, although it forms no part of the general procedure of the House, is a substantive motion and may be moved and debated upon proper notice being given. In this case, proper notice was given and I find the motion to be in order on this ground.

I have considered carefully the arguments of members concerning the deeming provisions of the motion which would treat amendments tabled before 6.00 p.m. of the first Sessional day in Committee of the Whole House and not yet moved by 5.45 p.m. on the second Sessional day in Committee of the Whole House as if they had been moved. I have looked at the precedents and practices of this House and other jurisdictions to assist me in determining if such a provision is in order. Since 1985, in dealing with the Estimates, it has been a common practice of the House to deem that the Estimates not yet passed by the committees and reported to the House to be passed and all Estimates not yet concurred in to be concurred in. At the House of Commons at Westminster provision has been made in time allocation motions to deem parts of a bill to stand part of the bill without question put and it is a recognized technique in legislative drafting that a bill may be deemed to have come into force on a day prior to passage through the House and Royal Assent.

Also, at the House of Commons in Ottawa, at that stage of the legislative process which they call the Report stage, which is an equivalent to our Committee of the Whole stage, it is often the case that time allocation will affect this stage in the very same way as is proposed here. In that case, sometimes a very large number of amendments will be put to the House seriatim without having been debated.

If the Chairman of the Committee of the Whole House determines that an amendment which is deemed to be moved by the provisions of the time allocation order is out of order, it is the duty of the Chairman to rule accordingly before the question is put on the amendment. The effect of the time allocation order is not to deem any amendment affected by its provisions to be in order.

I therefore find this provision in the motion to be in order.

By its very nature, an allocation of time order is a means by which debate on a matter is curtailed by allocating a specified number of days to the various stages of a bill. Such a procedure is, as stated in Erskine May's *Treatise on the Law, Privileges, Proceedings and Usage of Parliament*, 20th Edition at pages 454 to 455, "the extreme limit to which procedure goes in affirming the rights of the majority at the expense of the minorities of the House" and is "capable of being used in such a way as to upset the balance, generally so carefully preserved, between the claims of business and the rights of debate." In my opinion, the allocation of time order moved by the Government House Leader does not infringe the rights of the minority.

On appeal, the ruling of the Speaker was sustained on the following division:—

Votes and Proceedings

Legislative Assembly
of the Province of Ontario

2nd Session, 34th Parliament
Thursday, July 20, 1989

Mr Kormos moved,

That in the opinion of this House, the Government of Ontario should immediately amend the *Ontario Drug Benefit Act*, S.O. 1986 and relevant regulations so that eligible persons who require hypodermic syringes for the self-administration of prescription drugs or medication are deemed when purchasing hypodermic syringes to be purchasing a *drug* or *listed drug product*; further, that a *drug* or *listed drug product* purchased by an eligible person, outside of the Province of Ontario, be deemed to have been purchased in the Province of Ontario.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Cureatz then moved,

That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Pursuant to Standing Order 71 (e), no objection having been made to the putting of the question on Mr Kormos' Resolution Number 22, the question, having been put, was carried on the following division:—

2nd Session, 34th Parliament
Thursday, October 12, 1989

That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.

A debate arising, at 10.55 a.m., further proceedings were reserved until 12.00 noon.

No. 59

Votes and Proceedings

Legislative Assembly
of the Province of Ontario

2nd Session, 34th Parliament

Thursday, October 26, 1989

Mr Villeneuve moved,

That in the opinion of this House, recognizing that the Government of Ontario has failed Ontario's agricultural sector by:

1. not providing a higher budgetary and program priority to agriculture;
2. not consulting with agricultural organizations prior to instituting major program changes;
3. having a dismal record of co-operation and consultation with the federal government;
4. providing no leadership within the government to promote alternate crop uses;
5. cancelling interest rate relief as interest rates have risen;
6. ignoring its own report concerning free trade;
7. failing to recognize in a timely manner the importance and implication of the current GATT round;
8. retreating from announced intentions to protect agricultural land; and
9. not having the policies and means to ensure a healthy agricultural industry for Ontario on the 1990's and beyond;

the Government of Ontario should: provide a program to replace OFFIRR while interest rates remain high; abandon the changes to the Farm Property Tax Rebate Program at least until after consultations take place with the farm community; take a more active role on alternate crop uses, particularly in co-ordinating with other Ministries; and establish a pre-budgetary hearing process to better set agricultural spending priorities.

A debate arising, at 11.02 a.m., further proceedings were reserved until 12.00 noon.

Mr Ray (Windsor-Walkerville) then moved,

That, in the opinion of this House, a Select Committee on Urban Growth should be established to examine and report on urban growth patterns in Ontario and to recommend a long-range provincial policy on urban growth. The Select Committee should consider:

1. variations in urban growth patterns in Ontario;
2. causes of this variation in urban growth patterns;

3. economic, financial, social and environmental consequences of such patterns;
4. short-range and long-range policy options available to the government and,
5. legislative, institutional and program changes required to implement an Ontario government policy on urban growth.

THE AFTERNOON SITTING

1.30 P.M.

During Routine Proceedings, the Speaker delivered the following ruling:—

On Thursday last, the Honourable Member for Hastings-Peterborough, Mr Pollock, rose to bring a Question of Privilege to my attention.

The Honourable Member stated that upon receiving a complaint from a constituent about a program put forward by Ontario Hydro, he had passed on the complaint to the Minister. The matter had then been referred to Ontario Hydro by the Minister and the Chairman and President of Ontario Hydro had then answered the Honourable Member directly. Finally, that same letter appeared in two local newspapers in the "Letters to the Editor" section approximately two weeks later.

The Honourable Member is complaining that his privileges have been abused because someone in the Ministry caused those letters to be published and the name of his constituent appears in the letter, thereby having an embarrassing effect on the person who complained to the Member in the first place. As well, the Member feels this may have a restraining effect in the future upon his constituents who might fear that their names would be published in local newspapers if they seek redress from their M.P.P.

Before I rule on this matter I would like first of all to recommend to members that in the future, as has been our practice, they give the Speaker at least one hour's notice of a proposed Question of Privilege, unless the matter that is being complained about is something that arises out of the Proceedings of the House and in that case, the Question of Privilege shall be presented immediately. Also, it is incumbent on Members to present their case fully to the Speaker in the Chamber and it is not satisfactory to present written submissions. The reason for this is to give other Members the chance to participate if that is their wish.

As far as the case presented to the House by the Honourable Member last Thursday is concerned, I well understand the Member's concerns. In his presentation he quoted Erskine May's Twentieth Edition at page 167 as follows:

"... the special position of a person providing information to a Member for the exercise of his parliamentary duties has been regarded by the courts as enjoying qualified privilege at law."

What the Honourable Member forgot to quote was the beginning of the sentence which reads as follows:

“But while it appears unlikely that any question of an actual or constructive breach of parliamentary privilege could arise in these cases . . .”

This full quotation implies two things. Firstly, that the breach complained about does not constitute a question of privilege and secondly, that the relationship between a member and his or her constituent is a special one to the point where members in a court of law have been able to use the defence that their communication with constituents was privileged.

In the present case, I cannot identify who gave the letters to the newspapers and have no intention of pursuing the matter, but I do want to emphasize the dual responsibility made clear by this case. First, the Public Service should treat matters dealing with constituents with the utmost discretion. Second, it might be useful if members ascertained from their constituents whether or not they wish the matter to remain confidential.

In order to emphasize this I would like to quote the Right Honourable Winston Churchill from March 9, 1954 in Westminster who said:

“The matter cannot be dealt with by a general rule against disclosure. But clearly Departments must exercise great discretion as to the circumstances in which disclosure is appropriate; and a reminder is being issued to Departments in this sense.

If I might make a practical suggestion, Honourable Members might also consider on occasion asking their correspondent, in the case of a letter on which they are contemplating an inquiry from the Government, whether he is willing that it should be disclosed to a wider circle.”

Therefor, I thank the Honourable Member for bringing this matter to the attention of the House but I must find that there is no *prima facie* case of privilege.

Pursuant to Standing Order 35(b), the following Petition was presented:—

Petition relating to Waste Disposal (*Sessional Paper No. P-5*) (Tabled October 26, 1989) *Mr Wildman*.

Debate was resumed on the Motion for Second Reading of Bill 47, An Act to impose a Tax on Employers for the purpose of providing for Health Care and to revise the requirements respecting the payment of Premiums under the Health Insurance Act.

And, after some time, the motion, having been put, was declared carried and the Bill was accordingly read the second time and *Ordered referred to the Standing Committee on Finance and Economic Affairs*.

A debate arose on the Motion for Second Reading of Bill 46, An Act to establish a Commercial Concentration Tax.

And, after some time, it was,

On motion by Mr Pope,

Ordered, That the debate be adjourned.

The House then adjourned at 6.00 p.m.

Mr Eves moved,

That this House condemns the government for its failure to address the deterioration of our health care system—specifically its underfunding of hospital operating budgets resulting in the closing of hospital beds; its failure to keep its commitment to fund 4,400 new chronic and acute care hospital beds; its insensitivity to the increased waiting lists for health services forcing Ontarians to seek health care outside the province and resulting in the suffering of patients; its inability to foster a cooperative relationship and trust with health care providers; its inadequate support and funding for a more community-based approach to health care delivery; and, its attempts to blame individual doctors and health care professionals for the problems in the health care system.
